

MARVIT®

Natur-Lax®

PROBIO

TO REGULATE THE INTESTINAL TRANSIT
TO PROMOTE THE DIGESTIVE FUNCTION

PRODUCT CLASSIFICATION:

Food Supplement.

ACTIVE INGREDIENTS:

- Rhubarb: **120 mg**
- Senna: **80 mg**
- R. frangula: **80 mg**
- Aloe vera: **20 mg**
- Verbena: **20 mg**
- Dandelion: **20 mg**
- Curcuma: **10 mg**
- Caraway: **10 mg**
- Anise: **10 mg**
- Mauve: **10 mg**
- Cinnamon: **8 mg**
- Fennel: **12 mg**
- Bacillus Coagulans
1 tablet contains
7 mg di B. C. (=100 million)

HOW TO USE:

1-3 tablets a day in the evening, after dinner,
with a glass of water.

PACKAGING:

2 blister da 15 tablets each, inserted in a fold box
with leaflet.

RHUBARB:

To stimulate the secretion of gastric juices and the intestinal peristalsis.
To promote the motility of intestinal smooth muscles.

SENNA:

To perform an elective tropism towards the large intestine.
To enhance an activation of the peristalsis. The result is a natural laxative effect.

RHAMNUS FRANGULA:

To stimulate the muscles of the large intestine regulating the intestinal functions
and promote peristalsis. At level of colon, to inhibit the reabsorption of water and salts,
favouring the production of soft stools.

ALOE VERA:

To stimulate the muscle contractions of the terminal section of the intestine facilitating the peristalsis.

VERBENA, DANDELION, FENNEL, CINNAMON, CURCUMA, CARAWAY, ANISE AND MAUVE:

They contribute to improve the intestinal transit and digestive function, with a synergic effect.

BACILLUS COAGULANS:

The Natur-Lax formula has been integrated with 100 million of Bacillus Coagulans that have the function
of creating a protective barrier inside the intestine, counteracting pathogens.
They also contribute to the formation of lactic acid which normalizes the intestinal ecosystem
and improves the immune defenses, consequently increasing the efficacy of the product.
Furthermore, it survives from the action of temperatures, gastro juices and bile salts thanks
to their spore-forming property.
